

Call for Posters

Prevention 1st Foundation, a 501(c)(3) non-profit organization dedicated to injury prevention, is sponsoring its **3rd Annual Home Fire Drill Poster Exhibition** as part of our community-wide **Practice Your Home Fire Drill** campaign.

Practice Your Home Fire Drill is held in the spring and fall in conjunction with the biannual message "Change Your Clock/Check Your Batteries" to encourage all households to maintain a working smoke alarm, create an exit plan, and above all practice a home fire drill twice a year.

- All posters must incorporate the theme Practice Your Home Fire Drill;
- All posters must be 12" x 18" and unmounted;
- They may be done in any medium;
- Each poster should have on the back the artist's name and contact information. If the artist is a student, please include school and grade level;
- Schools and other participating organizations will be asked to select **5 posters from each school/organization by February 15, 2010** to be included as part of the area-wide poster display in March 2010.
- Volunteers working with Prevention 1st Foundation will pick up the posters from participating schools/organizations and deliver them for display in area malls and other public spaces, and return the posters to schools/organizations after the display period.

Questions? Contact Prevention 1st Foundation at hfd@prevention1st.org or (585) 383-6505
